

I have been attending Circle C ranch since I was 12 years old. I remember one summer in particular had been going through a very hard time dealing with severe anxiety and depression always battling the urge to end my life. Wayne really helped me through that time. He told me how I was so precious to Jesus and that I'm not worthless. He was never once was harmful or inappropriate towards me in any way. God used him to speak into my life that summer and help me out of a very dark time. He made me feel safe , and heard. He was loving in a big fatherly type of way. camp was about the only safe place that I could go to.
