

When I first became a christian, my boys were ten years old. I saw an add in our local paper for a youth group in town. I called and asked questions about it and decided my boys would join the following week. My boys are 18yrs old now, they have loved going to youth group every week and have loved Wayne and Julie even more. Wayne has a huge heart for teenagers and has been a very important role model in both my boys lives. I have contacted him multiple times to seek advice during tough times and he has always been there to help no matter what the situation has been. Both of the boys loved every year they attended Circle C Summer camp and my son has even worked there for a couple summers and has loved it. Two years ago both our daughters joined the youth group and make me mark it on the calendar for each week and remind me multiple times the day of. Not only do all of my children adore both Wayne and Julie but most importantly they have been taught to love Jesus and follow him every day of their lives. Both the Youth group and Circle C Ranch are a huge part of our lives and many others lives as well our community would not be what it was without them. We love the whole Aaron Family and cannot imagine doing life without them all. I will end with this sweet note card that our son brought home with him 7 years ago and we keep it hung up in our house as a reminder of how truly blessed we are to call Wayne and Julie our friends.

Kind Regards
